Course Enrolment

Enrolment Form

Please fill out **ALL** sections of the Enrolment Form to enable us to process your enrolment and comply with requirements detailed below.

Under the *Data Provision Requirements 2012*, ATI-Mirage (RTO No. 1918) is required to collect personal information about you and to disclose that personal information to the National Centre for Vocational Education Research Ltd (NCVER).

Your personal information (including the personal information contained on your enrolment form), may be used or disclosed by ATI-Mirage (RTO No. 1918) for statistical, administrative, regulatory and research purposes.

For further information on how this data is used see Privacy Notice below.

Unique Student Identifier (USI)

As of 1 January 2015 all students completing nationally recognised qualifications are required to obtain a Unique Student Identifier.

What is a USI?

The USI is a reference number made up of ten numbers and letters that:

- creates a secure online record of your recognised training and qualifications gained in Australia, from all training providers you undertake recognised training
- will give you access to your training records and transcripts
- can be accessed online, anytime and anywhere
- is free and easy to create and
- stays with you for life

Who needs a USI and why?

If you are a new or continuing student undertaking nationally recognised training, you need a USI in order to receive your qualification or statement of attainment. If you don't have a USI you will not receive your qualification or statement of attainment.

Your USI will give you access to an online record of the training you have done since 1 January 2015. You will also be able to produce a comprehensive transcript of your training.

This can be used when applying for a job, seeking a credit transfer or demonstrating pre-requisites when undertaking further training.

For more information go to: <https://www.usi.gov.au/about>

To apply for a USI online: <https://www.usi.gov.au/students>

You can also use this website to retrieve information on your USI if you have lost it.

If you wish ATI-Mirage to apply for the USI on your behalf please tick the box on your enrolment form. You will be required to provide us with a form of identification to verify your identity. Student Support Services will organise this for you. If you still haven't completed this on the first day we can organise all outstanding requirements to get you onboarded.

Pre-Assessment

You will be required to complete a pre-assessment before you commence your program of study.

Reason for Pre-assessment

The pre-assessment is designed to determine your existing skill level and to ensure that the program is suitable for you.

It is not part of your assessment and is only being used to determine the level of support that you will need to complete the program.

If you have extensive prior knowledge and experience you may be able to apply for Recognition of Prior Knowledge (RPL), which is an assessment only pathway and you will not have to attend the training for units where you are awarded RPL. You will need to provide current and sufficient workplace evidence to be assessed. If you think you have extensive knowledge and skills in any of these areas, please mark apply for RPL and the assessor will send you an extensive RPL kit where you will be able to look at the criteria involved in this process.

Even if you have extensive prior knowledge and skills in some areas you may prefer to refresh and reinforce those skills by attending training and still be able to fast-track some of the assessment by submitting workplace evidence, provided it matches the performance criteria of the unit of competency.

If you are unsure of any of the above and wish to have more information or discuss this with the assessor prior to completing please send an email to: assessments@ati-mirage.com.au with your contact details and a qualified assessor will contact you to discuss this in more detail.

See Enrolment Policy and Procedure below for full details.

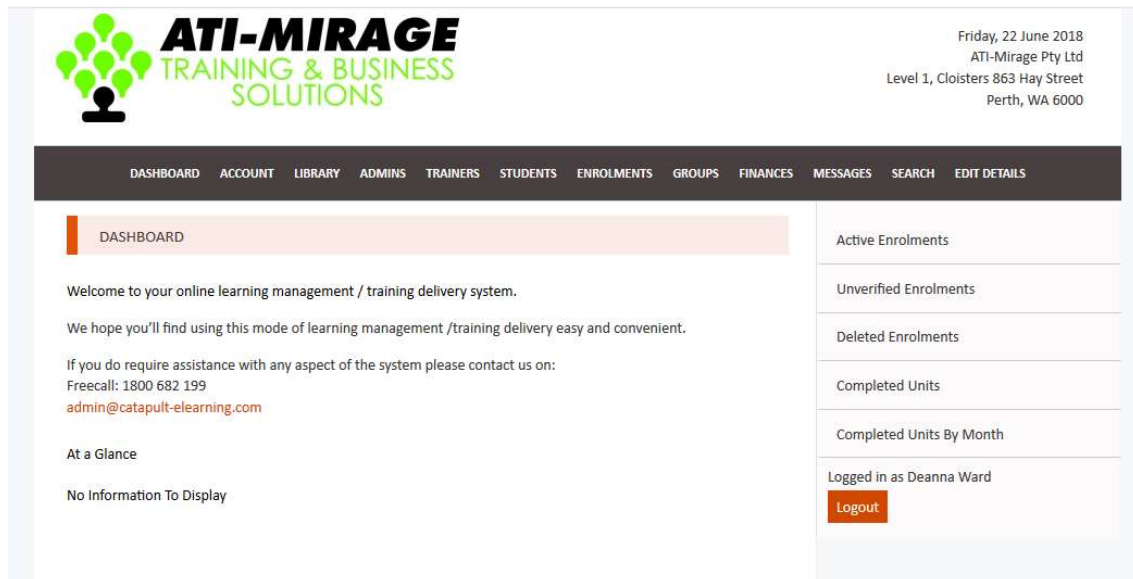

The ATI-Mirage LMS (Learning Management System) is an online portal. Some of the courses available from ATI-Mirage utilise an LMS:

Learning Management System (LMS)

Once you have enrolled you will be given access to the Learning Management System. This will be on the first day of your course delivery and you will be given an orientation by your trainer in the LMS and you will receive a Guide to the Learning Management System and Assessment.

A Learning Management System (LMS) is a software application for the administration, documentation, tracking, reporting and delivery of educational courses or training programs.

- provides learning materials and assessments in a web-based environment, which means that you can login wherever you are and continue where you left off, without having to retrace your steps, and you will not have to carry all the materials around with you.
- stores all evidence submitted, so that you don't have to worry about losing assessment evidence.
- allows you to track your progress in the tracking system inside your Dashboard. You will be able to see your progress as you go and what units you have successfully completed and progress on those you have not yet completed, so you will always know where you are at.
- can be opened in two screens so that you can view the online material whilst you are completing your assessment.

The screenshot shows the ATI-MIRAGE LMS dashboard. At the top left is the logo and company name. On the top right, the date and address are displayed. A dark navigation bar contains menu items: DASHBOARD, ACCOUNT, LIBRARY, ADMINS, TRAINERS, STUDENTS, ENROLMENTS, GROUPS, FINANCES, MESSAGES, SEARCH, and EDIT DETAILS. The main content area is divided into two columns. The left column, titled 'DASHBOARD', contains a welcome message, contact information (freecall: 1800 682 199, email: admin@catapult-elearning.com), and a 'Logout' button. The right column contains a list of user statistics: Active Enrolments, Unverified Enrolments, Deleted Enrolments, Completed Units, and Completed Units By Month. At the bottom of the right column, it shows 'Logged in as Deanna Ward' and a 'Logout' button.

Recognition of Prior Learning (RPL) Policy and Procedure

Purpose

The purpose for this policy is to outline the procedure for application for recognition of prior learning.

Scope

This policy applies to all students enrolled within nationally recognised Vocational Education and Training (VET) courses offered by the Registered Training Organisation, ATI-Mirage.

Policy

ATI-Mirage provides Recognition of Prior Learning (RPL) for any learner who may have existing and current skills, knowledge and experience relevant to the qualification and/or unit(s) of competency they are seeking. Learners are not required to repeat a learning activity, regardless of how or where the learning was acquired, providing that the learning is current and industry relevant. These learning experiences include previous training, work experience (paid or volunteer), and life experiences.

Candidates are required to complete the appropriate Recognition of Prior Learning Application form and kit and provide supportive evidence. This evidence will be assessed and an interview will be held. The interview and/or demonstration may be conducted face to face, by telephone, Skype or another suitable method of communication.

ATI-Mirage reserves the right not to recognise part, or any, previous experience, if the assessor believes that the skills or knowledge demonstrated fall short of the industry standard. In such a case, the candidate will be required to complete further training in the unit.

There is no limit to the amount of RPL that can be granted to any one student. A full qualification can be attained in this way, or individual units of competency.

Procedure

Recognition of Prior Learning (RPL) is the process whereby RTOs look at the prior knowledge, skills and experience of a candidate to award RPL against a unit of competency.

Candidate completes pre-assessment for program and indicates interest in RPL for all or some units of competency.

You should discuss RPL with your assessor **BEFORE** you commence your studies, as it may mean that you are not required to attend the training sessions and will not have to complete the assessments in the LMS.

Step 1: Register your interest and complete self-evaluation

Complete the RPL application and kit.

In order to apply for recognition of prior learning you must provide evidence that addresses and meet the requirements for this unit. Your evidence may take a variety of forms; it may include but is not limited to:

- Results of any previous assessments
- Details of in-house courses, training programs, orientation, induction
- References or letters from employers and or supervisors
- Workplace documents
- Resume, position description or job description
- Diaries/task sheets
- Emails/letters
- Copies of presentations
- Photographs, videos.

Step 2: RPL Interview and Questioning

The RPL interview provides the opportunity for the candidate and the assessor to have a professional conversation about the candidate's required knowledge and skills and review the evidence presented. The topics of discussion are drawn from the unit(s) of competence required skills and knowledge. The interview is documented for evidence of required skills and knowledge.

If the interview demonstrates the candidate's verbal knowledge is sufficient, the next step is to observe and assess the candidate's performance in practice.

Step 3: Demonstration Assessment

Practical tasks provide the opportunity for the candidate to demonstrate the application of skills and knowledge of a unit of competence or full qualification. A range of evidence will be used to assess practical skills and knowledge to meet the **evidence required to demonstrate competency**.

Step 4: Third Party Report

You may be required to obtain a Third Party Reports as supplementary evidence to authenticate the evidence you have provided. This must be from persons who have directly observed you demonstrate the skills and knowledge identified.

Notification of outcome

After the assessment, the assessor will provide information about the candidate's skills and knowledge that have been recognised and whether the candidate has gained RPL. If the candidate has any skill gaps, the assessor will discuss this with the candidate and address the training options to complete their qualification.

To be able to grant RPL, the assessor must be confident that the applicant is currently competent against all elements of competency within this unit and must ensure that submitted evidence meets the Rules of Evidence.

Rules of Evidence

Validity

The assessor is assured that the learner has the skills, knowledge and attributes as described in the module or unit of competency and associated assessment requirements.

Sufficiency

The assessor is assured that the quality, quantity and relevance of the assessment evidence enables a judgement to be made of a learner's competency.

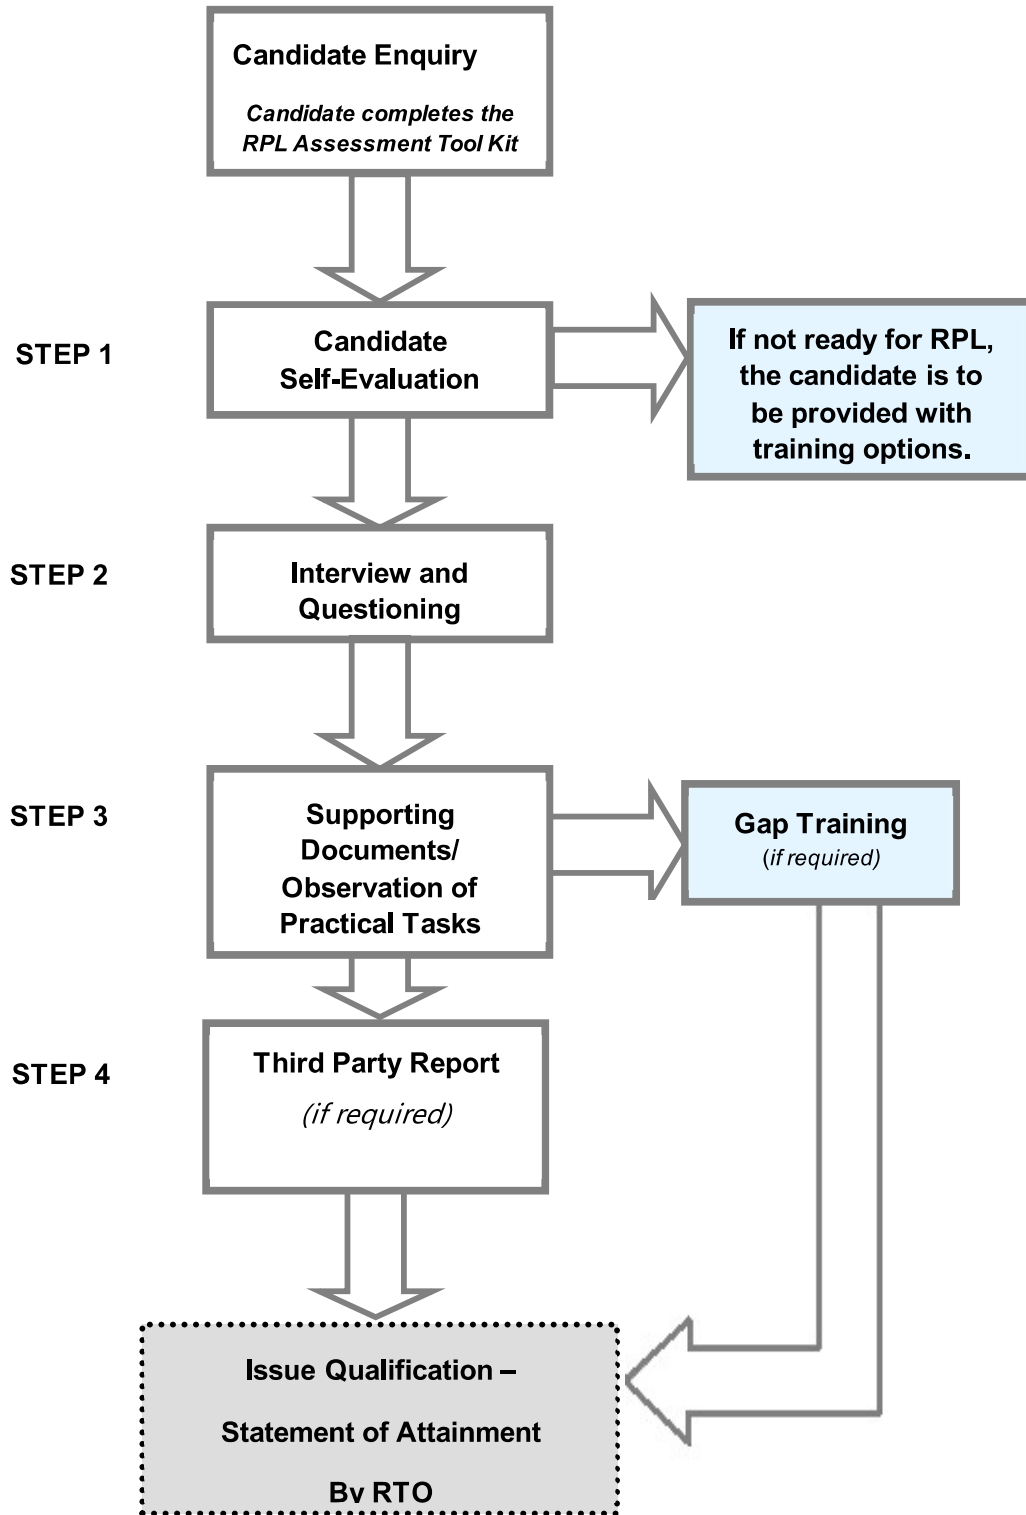

Authenticity

The assessor is assured that the evidence presented for assessment is the learner's own work.

Currency

The assessor is assured that the assessment evidence demonstrates current competency. This requires the assessment evidence to be from the present or the very recent past.

Overview of the RPL Process

Credit Transfer Policy and Procedure

Purpose

The purpose of this policy is to outline the procedure for applying credit transfers for studies already completed. *This aligns with Clause 3.5 Provide Credit for Prior Studies under the Standards for RTOs 2015.*

Scope

This policy applies to all students enrolled within nationally recognised Vocational Education and Training (VET) courses offered by the Registered Training Organisation ATI-Mirage, and who are applying for credit transfer for prior studies. All RTOs must recognise qualifications, units of competency and skillsets awarded by other RTOs.

Note that providing credit for previous studies is not a recognition of prior learning (RPL) process. RPL is a form of assessment of the competence of a person, whereas credit transfer is recognising the equivalence of studies previously undertaken and completed successfully.

Recognition of prior learning (RPL) is covered under a separate policy and procedure.

Relevant Documentation

- Course Credit Form
- Unit Equivalency Transition Form

Policy

Candidates are required to complete the Course Credit Form and provide the required evidence. This evidence is:

- a. AQF certification documentation issued by any other RTO or AQF authorised issuing organisation, or
- b. authenticated VET transcripts issued by the Registrar.

The Statement of Attainment or Record of Results must be authenticated by the RTO. If the certificates do not have a unique identifier such as a watermark or seal and cannot be authenticated as original copies, then the RTO must verify authenticity using the RTO Verification of Prior Studies Form. All authenticated copies should be kept in the student's electronic student file in the requisite folder for each unit of competency as evidence and/or completed RTO Verification of Prior Studies Form.

ATI Mirage is not obliged to issue a qualification or statement of attainment that is achieved wholly through recognition of units and/or modules completed at another RTO or RTOs.

In some cases, licensing or regulatory requirements/changes may prevent a unit or module being awarded through a credit process, so this should be checked prior to issue.

Procedure

At enrolment the administration officer will, on receiving a request for course credit:

- supply the student with a **Course Credit Form** for completion.
- on receiving a completed **Course Credit Form** from a student, pass the application onto the **RTO Consultant** or **Manager Operations** who will:
 - verify the attainment of the units of competency by sighting original and/or authentic VET transcript(s), a record of results or a statement of attainment for currency and authenticity and will maintain copies of the evidence of attainment in the student's file. Where necessary, they will have to verify with the issuing RTO.
 - check equivalency of the unit where the credit being applied for is for a superseded unit against the new unit using the Unit Equivalency Transition Form, as there may be a gap that must be filled, in which case only a partial credit will be applied and the candidate may be required to provide additional evidence to address the gap.
- ensure that students who are granted course credit are provided with a signed copy of the Course Credit Form identifying their successful application for course credit; their acceptance of the Form is noted by their signature.
- ensure that the student has a Unique Student Identifier (USI) prior to applying the Credit Transfer in accordance with *Student Identifiers Act 2014*.
